YOU CAN BE A CHAMPION

About Richard

Richard is a Professional Natural Bodybuilder. However, the road to get there was not easy. On February 28, 2020, he sustained a traumatic brain injury with paralysis. A couple of months later, he almost succumbed to Toxic Mold Sickness. He lost 50 lbs. and had itchy, bloody eczema over his entire body. He was later diagnosed with a very serious inflammatory Auto Immune Disease. In a 3 1/2 year period, he survived several hundred life-threatening allergic and auto immune reactions. It took him over a year to overcome his paralysis and learn how to walk properly again. Despite these challenges, he went on to become a four-time Amateur National Champion. He later won his Pro Card and now competes as a professional athlete. He is an inspiration to all!

What You Will Learn

- The three "P's" needed to be a champion
- The Elephant in the Room
- Champions are human too
- Stepping Outside of Your Comfort Zone
